

**PREMIUM PARTNER IN  
PACKAGING & HANDLING**

**INFOSHEET**

INTERNATIONAL SUPPLIER OF PREMIUM  
PACKAGING & HANDLING SOLUTIONS

PalletBiz embarked on its journey as a humble, family-driven enterprise in the late 1990s. As we celebrate our 25th anniversary in 2023, it marks a remarkable milestone in our evolution. Over the past 25 years, we have meticulously cultivated an expansive international network, forged valuable partnerships, and collaborated closely with dedicated colleagues across EMEA. This concerted effort has propelled us to the forefront, establishing PalletBiz as one of the leading cross-border providers in the packaging and handling industry.

Our unwavering commitment remains steadfast: to furnish the industry with the finest handling material solutions while upholding our core corporate values and principles. We proudly identify ourselves as a Premium Partner, where the fusion of Business, Environment, and Values harmoniously converges – an ethos we fondly refer to as the "PalletBiz Way."

Jens J. Gents

# PALLETBIZ IN BRIEF

PalletBiz: A dynamic global packaging and handling network with franchise units and distribution depots interconnected through global operations. Our core offerings include diverse pallets, packaging materials, and handling products for various industries.

Beyond quality materials, we specialize in comprehensive handling solutions, prioritizing Total Cost of Ownership (TCO) optimization for clients. With a 25-year track record, we've expanded our franchise throughout EMEA and aim for global growth, enhancing market transparency, convenience, cost-efficiency, and sustainability.

We are committed to delivering superior solutions, empowering businesses to thrive in a changing landscape.

**200+**  
people

Have optimized packaging spend for  
**100+**  
companies

*By combining and leveraging of the increasing **network strength** – we strive to offer **Premium Pallets & Packaging solutions** for **cross-border clients** as a **one-call-for-all**.*

**25**  
years' experience

Represented in  
**14** countries

**500+**  
satisfied customers

**30** million € revenue

## BUSINESS

A consistent 27% compounded growth rate for the network makes PalletBiz a premium partner choice for clients as well as suppliers across EMEA.

## ENVIRONMENT

PalletBiz is taking a leading stand in the industry to protect the environment by considering forest biodiversity as part of our business approach & sustainable processes.

## VALUES

We believe in a simple set of core values that guide our approach in doing business across countries and cultures: openness, loyalty, proactiveness and win-win.

# CP PALLETS

CP pallets, distinguished by their heat treatment and inherent anti-decomposition properties, play a pivotal role in the safe transportation and storage of various sensitive goods. Primarily utilized in the import and export of chemicals, grains, pharmaceuticals, and other delicate commodities, CP pallets offer several key advantages. CP pallets are indispensable assets in the logistics chain for protecting and maintaining the quality of sensitive products, thereby contributing to the success of import and export operations across multiple industries.

-  **Compatible with pallet jacks and forklifts**
-  **Safety specifications**
-  **Optimal for transporting chemicals and materials**

**CHEMICAL PALLETS, OFTEN REFERRED TO AS CP PALLETS, ARE A SPECIALIZED TYPE OF PALLET DESIGNED FOR THE STORAGE AND TRANSPORTATION OF CHEMICALS & HAZARDOUS MATERIALS.**

## Specifications:

### Dimensions:

CP1 to 9

### Material:

Soft wood (e.g. pine, spruce)

### Standards:

IPPC ISPM-15, Kiln dried & AST wood, certified nails

### Services available for product:

Technical calculation 2D-3D design, all life-cycle services

# EUR SIZE PALLETS

Euro sized Pallets are treated in accordance with IPPC ISPM-15.

We offer standard 1200 x 800 exchangeable EUR sized Pallets in premium quality.

## Specifications:

### Dimensions:

1200 x 800 x 144 mm

### Material:

Soft and hard woods (e.g. pine, spruce, poplar)

### Standards:

IPPC ISPM-15, Kiln dried

### Services available for product:

All life-cycle services

- ★ **Optimal dimensions for truck or rail transportation**
- ★ **Easy and efficient handling due to its reliability and standard**
- ★ **PalletBiz has more than 15 years of repair and life-cycle service experience**

# STRINGER PALLETS

## Specifications:

### Dimensions:

Can be produced according to client's requirement

### Material:

Soft wood (e.g. pine, spruce)

### Standards:

IPPC ISPM-15, Kiln dried & AST wood

### Services available for product:

Technical calculation 2D-3D design, all life-cycle services

**TWO-WAY STRINGER PALLETS: NAMED FOR THE STRINGERS—BOARDS SUPPORTING THE LOAD BETWEEN TOP AND BOTTOM DECK BOARDS. THIS PALLET PERMITS FORK ENTRY FROM ONLY TWO SIDES.**

A stringer pallet gets its name from key structural elements called "stringers," providing primary support for the unit load. These stringers, usually 2 x 4 inches or 3 x 4 inches are securely positioned between upper and lower deck boards.

# INDUSTRIAL PALLETS

Industrial pallets are heavy-duty platforms used in various industries to store, transport, and handle goods. These pallets are designed to withstand heavy loads, frequent handling, and harsh industrial environments.

- ★ **Stackable pallets, allowing for efficient storage**
- ★ **Robust and sturdy design**
- ★ **Offer a solution for handling heavy loads**

## Specifications:

### Dimensions:

Can be produced according to client's requirement

### Material:

Soft wood (e.g. pine, spruce)

### Standards:

IPPC ISPM-15 heat treatment, kiln drying & AST wood, certified nails

### Services:

Technical calculation 2D-3D design, all life-cycle services

The Industrial Pallet is used in many industries as it reduces product damage and increases load stability through its usual strong construction. It can likewise help to increase operational productivity as the pallet is suitable for automated production and warehousing facilities.

# BLOCK PALLETS

Block pallets, known for their true 4-way entry design, utilize solid wood, plywood, or plastic blocks to support the unit load. Typically featuring 4 to 12 blocks supporting the top deckboards, these pallets incorporate thin stringers between the blocks and deckboards. The key advantage lies in their accessibility—forklifts can approach from all four sides.

## Specifications:

### Dimensions:

(1200 x 1000 x 145 mm)

Can be produced according to client's own specification

### Material:

Soft wood (e.g. pine, spruce)

### Standards:

IPPC ISPM-15 heat treatment, kiln drying & AST wood, certified nails

### Services available for product:

Technical calculation 2D-3D design  
All life-cycle services

- ★ **Available in wood, plastic or plywood**
- ★ **Consist of 4 to 12 cylindrical wooden posts, stabilizing top deck**
- ★ **Reversible and non-reversible based on specific needs**

## ECO PALLET LIGHT

Affordable, Lightweight Block Wooden Pallet: Manufactured with recycled compressed blocks, tailored for lighter loads (up to 0.5 tons).

- ★ **Standard Wooden Block Pallet.**
- ★ **Size – 1200 mm x 1000 mm., non-reversible**
- ★ **Environmentally friendly – made from recycled materials (Pressed Blocks).**
- ★ **Sustainable and Cost-effective solution.**
- ★ **Heat treated and stamped as per IPPC ISPM-15 Standards.**
- ★ **Load capacity of up to 500 kgs.**
- ★ **Durable and a sustainable choice**
- ★ **Ideally suited for FMCG sector and other light industries with a need for handling lighter loads.**

## ECO PALLET HEAVY

Budget-Friendly, Heavy-Duty Block Pallet: Ideal for loads up to 1 ton, specially designed and made with recycled materials (pressed blocks).

- ★ **Standard Wooden Block Pallet.**
- ★ **Size – 1200 mm x 1000 mm., non-reversible**
- ★ **Environmentally friendly – made from recycled materials (Pressed Blocks).**
- ★ **Sustainable and Cost-effective solution.**
- ★ **Heat treated and stamped as per IPPC ISPM-15 Standards.**
- ★ **Load capacity of up to 1000 kgs.**
- ★ **Ideally suited for Industrial manufacturing sector requiring heavier load capacities**

# COMPRESSED BLOCKS

Engineered with a dense composition of compressed sawdust, these blocks can accommodate high load capacities. Their superior strength allows them to withstand heavy loads without compromising structural integrity. The compressed blocks provide exceptional nail retention capability, offering twice the gripping strength of standard wood blocks.

**OUR WOODEN COMPRESSED BLOCKS  
MADE FROM SAWDUST ARE COMPACT  
& EASY TO STORE THANKS TO THEIR  
HIGHLY IMPROVED DIMENSIONAL  
CONSISTENCY.**

- ★ **Sustainably durable product**
- ★ **High-quality homogeneous wood material**
- ★ **These blocks can accommodate high load capacities**

## Specifications:

### Lengths:

75 mm – 150 mm (3 inches – 6 inches)

### Width

75 mm – 100 mm (3 inches – 4 inches)

### Height:

75 mm – 150 mm (3 inches – 6 inches)

Smooth surface

Crafted through high-temperature

Ideal for various applications

Resistant to fungal, termite, and bacterial contamination

*Compressed blocks are high-quality homogeneous wood material with unique properties & sustainably durable product*

# PALLET COLLARS

Pallet collars represent a practical tool for quickly creating a flexible box for the storage of loose goods and parts. The Collars – or Pallet Frames, as they are also called – are easy to mount/dismount from your pallets and can be collapsed and conveniently stored in a smaller area when they are not in use.

We produce pallet collars for standard as well as custom pallets – all planed and heat-treated.

Product packaging and storage are important areas of business and product development, in which companies are expected to be sustainable and environmentally friendly. Pallet collars allow for flexibility, effectiveness and integration within the packaging and handling processes.

## Specifications:

### Dimensions:

1200 x 800; 800 x 600; 1200 x 1000 mm & special

### Material:

Planed soft wood

### Standards:

IPPC ISPM-15, Kiln dried

### Services available for product:

Custom branding/logo, buy-back as well as a selection of accessories upon request

- ★ **Quick and easy assembly handling**
- ★ **Space optimization (up to 80% space savings)**
- ★ **Bundling with collar accessories ensures safe transport and handling.**

# PALLET COLLAR ACCESSORIES

Unlock the full potential of pallet collars with our range of accessories. From corners and dividers to spacers, label holders, and lids/covers, each accessory is meticulously designed to enhance the durability and convenience of your pallets. These additions offer cost-effective solutions for proper protection, space optimization, and efficient palletization. By incorporating these accessories into your operations, you not only save valuable time but also boost worker efficiency, reduce the risk of goods damage, and foster a safer working environment.

*PalletBiz is here to demonstrate the versatility of packaging & handling products*

Optimize your storage

Save money

Secure your cargo

Access load easily

Let our experts guide you!

# WOODEN BOXES & CRATES

## SOLID BOXES

A solid wooden box is produced with boards varying from 16–38mm in thickness. The boxes are manufactured in all sizes, depending on the specific requirements from the client. The robust structure of the box ensures that your goods will be safe and secure during both transport or storage at your warehouse.

- ★ **Commonly used in the machinery industry**
- ★ **Dried and heat-treated**
- ★ **Optimal for heavy equipment and loose goods**
- ★ **The loading capacity of the box is up to 1000 kg**

## WOODEN CRATES

Wooden crates provide protective transportation enclosures. With intentional board spacing, they offer a cost-effective alternative to solid boxes. Widely used in industries like aerospace, their lightweight design ensures both product protection and cost-efficiency during transit.

- ★ **Strong and reliable**
- ★ **Advantage of the see-through structure**
- ★ **Ideal for the storage of items with large volume and lighter weight**

## SEAWORTHY BOXES

Our seaworthy wooden box is built tough to ensure the secure transportation of your goods. With sturdy construction, it withstands the challenges of marine environments. Engineered to resist water, it keeps your items dry and secure in challenging sea conditions, preventing damage and ensuring

- ★ **Durable Construction**
- ★ **Water-Resistant Design**
- ★ **Versatile and customizable design as per client's requirements**

## SPECIAL WOODEN BOXES

Our special wooden boxes are customized packaging that blends features from various box types, tailored to your specifications. These storage boxes can be equipped with inserts, hinges, and other elements. Despite their smaller size, they ensure secure storage with interior boards. Ideal for storing small parts in larger quantities, such as screws and nails, these boxes provide a practical packaging solution. On the other hand, extra-large boxes cater to the transportation and storage of heavy or light-weight, large-sized, and sometimes irregular-shaped payloads.

-  **Customized Design**
-  **Secure Storage**
-  **Versatile Application**

## DUNNAGE

Dunnage serves as a crucial material for securing and protecting goods during transportation, handling, and storage. Acting as a cushion or barrier, it prevents damage and ensures product integrity across the supply chain.

## WOODEN GROOVES

Utilizing wooden grooves or runners, it stabilizes items with specific shapes, preventing lateral movement and potential harm. These grooves create a raised platform, elevating items above surfaces to shield them from moisture, dirt, and potential damage.

-  **Protecting goods during transport**
-  **Preventing lateral movement**
-  **Securing items**

# WEDGES

Wedges are versatile tools used in various applications, including fixing and securing big pipes. They play a crucial role in maintaining the stability and safety of pipelines, especially in industrial settings where the transportation of fluids or gases is a common requirement.

# USED STANDARD PALLETS

Used Pallets constitute a less expensive alternative to new pallets. With proper handling, these pallets can undergo 5 to 6 cycles or more, showcasing their durability and cost-effectiveness.

### Specifications:

#### Dimensions:

Most common sizes are 1200x1000 & 1200x800

#### Material:

Soft and hard woods (e.g. pine, spruce, poplar)

#### Services available for product:

Collection, buy-back, pooling & repair services

- ★ **Used exchangeable pallets – competitive prices**
- ★ **Three main categories: A, B, and C**
- ★ **PalletBiz has an extensive network for collecting & repairing used pallets**

Help the environment

Save money

Develop your business sustainably

Free up warehouse space

Assign PalletBiz to reduce your stock of pallets to a minimum and start **lowering your CAPEX.**

# HEAT TREATMENT

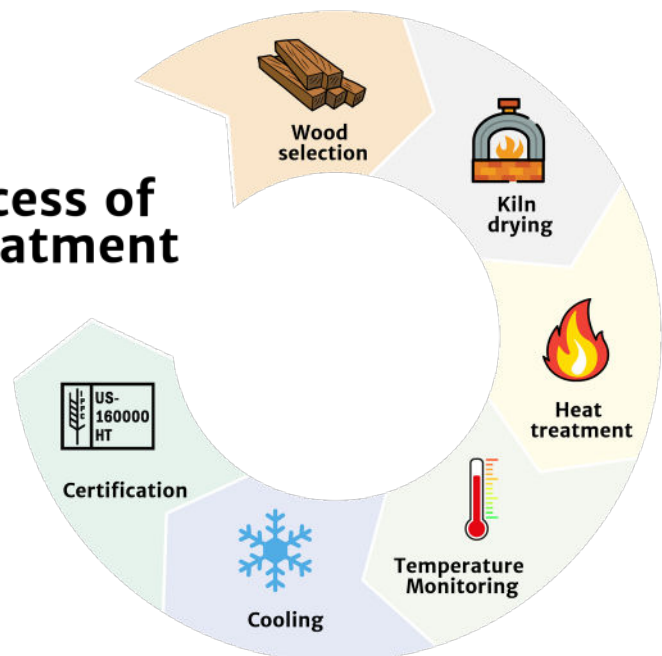

Heat treating enhances properties like hardness, strength, toughness, ductility, and elasticity in pallets. Specifically designed to reduce the risk of spreading pests and diseases, this process involves subjecting pallets to heat treatment to eliminate potentially harmful organisms.

Following the ISPM 15 standard, it mandates removing bark before fumigation or heat treatment to ensure no pests cross borders. This safeguarding process plays a crucial role in protecting ecosystems and agricultural industries from invasive species and diseases.

*HEAT TREATMENT IS A PROCESS INVOLVING THE APPLICATION OF SPECIFIC TIME-TEMPERATURE SCHEDULE AS PER ISPM15 STANDARDS TO PREVENT THE INTERNATIONAL TRANSPORT AND SPREAD OF DISEASE AND INSECTS*

## The Process of Heat Treatment

# PALLET SERVICES

## PALLET BUYBACK

We cater to both standard and specialized pallets and packaging. Feel free to reach out to explore the diverse pallet service options available for your company. Your unique needs are our priority.

*OUR SERVICES ACCOMMODATE BOTH STANDARD AND SPECIALIZED PALLETS AND PACKAGING. DON'T HESITATE TO GET IN TOUCH WITH US TO EXPLORE THE DIVERSE PALLET SERVICE OPTIONS AVAILABLE FOR YOUR COMPANY.*

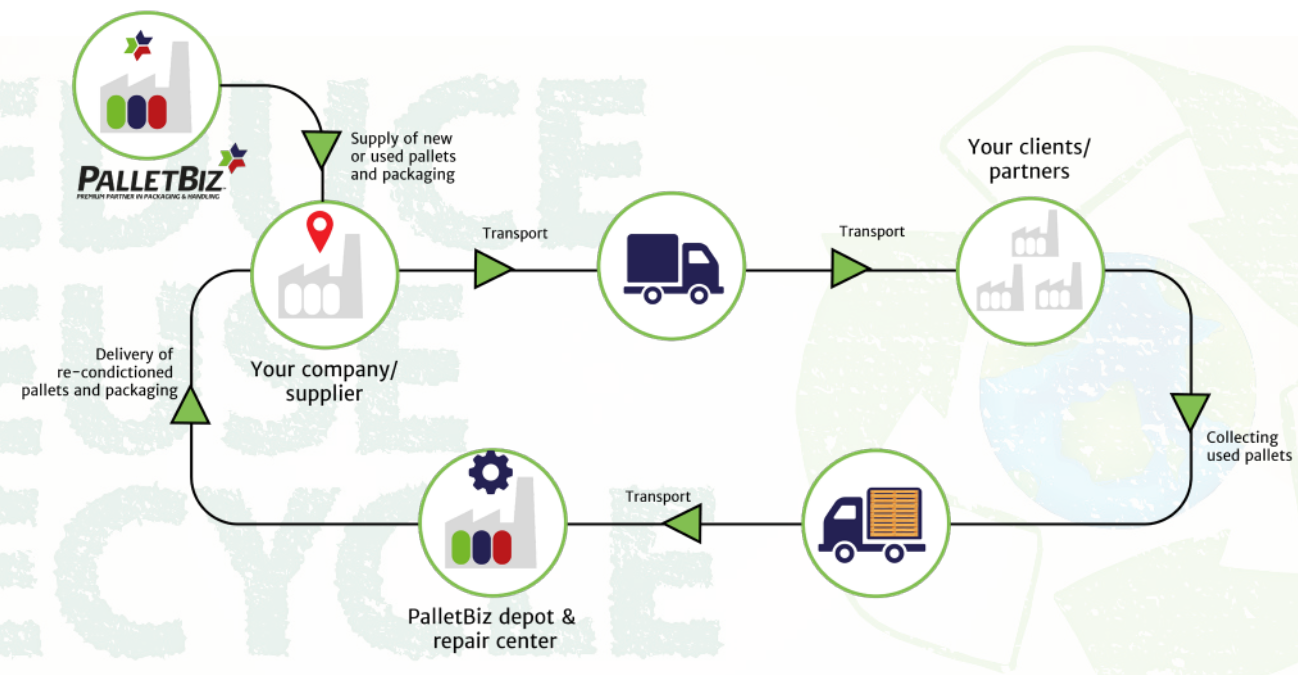

## PALLET REPAIR

We can repair all types of pallets. Our repair service can be combined with other of our services, such as:

1. Sorting of pallets at the client's site
2. Exchange or re-purchase of used and damaged pallets
3. Pick up – repair – return to same or different site

## PALLET EXCHANGE

# SUPPLY CHAIN

The concept underlining the PalletBiz Business System is the establishment of an international network of wood, metal & plastic packaging production units and distribution depots for packaging and handling materials. By closely collaborating across borders we strive to achieve an international coverage of sales and sourcing through Franchising and Supply partnering. We are furthermore clustering through a Client driven footprint – providing us with control over the regional supply chain of our Hubs and Depots.

WE ARE ALWAYS ON THE LOOK OUT FOR POTENTIAL PARTNERS IN THE SUPPLY OF PACKAGING AND HANDLING (RAW) MATERIALS

CURRENTLY WITH MANUFACTURING AND REPAIR CENTERS THROUGHOUT EMEA READY TO SERVE YOU

# MEET PALLETBIZ

OUR TEAMS ACROSS EMEA ARE REPRESENTING A MULTICULTURAL ENVIRONMENT WHICH INSPIRES US EVERYDAY THROUGHOUT THE COMPANY
